S3E05 AN AGE UNDREAMED OF (1) The ancient sorcerer KULAN GATH transforms the Avengers and all of New York City into a medieval version of themselves, leaving only Dr. Strange and the Scarlet Witch to save reality as we know it.

S3E06 RAIDERS OF THE LOST TOMB (2) Freed from Gath's spell by the Scarlet Witch and Quicksilver, a team of Avengers leads a rebellion against New York's transformed heroes. Even with their new teammates, can the Avengers stop the world from changing forever?

S3E07 THOR CROAKS As Ragnarok approaches, Loki takes Thor off the battlefield. His only hope? Ant Man and the Wasp... assuming a transformed Thor doesn't eat them. Riddit.

S3E08 THE SIGN OF THE SERPENT As Nick Fury and SHIELD deal with the resurgence of HYDRA, the Avengers are approached by Captain Marvel and Starforce Secret Service to rescue the pieces of the SERPENT CROWN... but Viper doesn't realizes the evil she's about to unleash on the world.

S3E09 WEST COAST AVENGERS While in California on an errand for Iron Man, Hawkeye and Wonder Man discover a more permanent change of scenery... until Grandmaster shows up. Even with the help of Mockingbird and the mysterious TIGRA, things look bad for the WACKOS.

S3E10 NIGHTS OF WUNDAGORE (1) As the Maximoff twins delve into the mystery of their true parentage, the Avengers face off with the High Evolutionary and his New Men on Wundagore Mountain. But the Evolutionary only wants to save the world from a much bigger threat.

S3E11 WITCH ON THE MOUNTAIN (2) Something terrible has awakened inside Wundagore Mountain and it's come for the Scarlet Witch. Chthon has returned, and now the Avengers' only hope lies in Quicksilver as he attempts to collect the pages of the DARKHOLD.

S3E12 EVERYTHING BURNS (1) Surtur arrives on Asgard as the Avengers face a wrathful Loki on Earth. Captain America puts his debt to Hela, while Thor faces his destiny in the form of the Midgard Serpent.

S3E13 RAGNAROK (2) The Twilight Sword has severed the World Tree. Odin is gone, Thor lays dying, Earth is all that's left. The end of all things has come.

S3E14 ENTER, THE X-MEN! With the Avengers scattered after the arrival of Asgard on Earth, the X-Men come to Avengers Mansion looking for two fugitives from the Brotherhood of Evil Mutants... Magneto's children, Quicksilver and the Scarlet Witch.

S3E15 THE OLD ORDER CHANGETH The world will always need Avengers and when the Masters of Evil strike, only Cap, Hawkeye, Scarlet Witch and Quicksilver answer the call. Plus, SHIELD isn't too happy about a couple of "evil" mutants on the team.

S3E16 THE MAN CALLED NOVA Alien monsters called the BROOD have already wiped out the Nova Corps... and now only Captain Marvel and the Avengers stand between them and Earth. Enter: The Human Rocket.

S3E17 THE FOURTH HOST Wakanda is invaded by a group of hyper-evolved beings called the ETERNALS! They're preying on the survival of the Space Gods known as the CELESTIALS, but the Black Panther stands in their way. Wakanda Forever!

S3E18 VICIOUS CIRCLE The juggernaut's on the rampage and only Thor and the Hulk can stop him! But when WOLVERINE and the X-MEN arrive to collect their old foe... SNIKT. But there are worse things in the Canadian wilderness than the Avengers or X-Men realize.

S3E19 THE LAST AVENGER As the Avengers battle Kang in ancient Egypt, Captain America is lost in time! From World War II fighting alongside the Atlantean SUB-MARINER all the way to a dark future controlled by Ultron, will Cap ever find his way back home?

S3E20 LIKE A PHOENIX FROM THE ASHES An ancient power moves across the universe, destroying everything in its path. Captain Marvel, Iron Man, Thor, Vision and Nova watch as the Galactic Super-Powers fail to stop it. The Phoenix Force is heading for Earth.

S3E21 EVOLUTIONARY WAR (1) Super-Humans, Mutants, Atlanteans, Inhumans. Eternals. Deviants. To save the world, the High Evolutionary will destroy them all. War has begun.

S3E22 CONQUEST (2) The High Evolutionary's Gene Bomb will cleanse the world of genetic deviations. This is exactly what Ultron wants.

S3E23 THE BEST OFFENSE The Hulk, Doctor Strange, and the Sub-Mariner are all that stand in the way of Earth's destruction at the hands of the Elders of the Universe... if only they could just get along. Captain Marvel and Valkyrie have their work cut out for them.

S3E24 X-SANCTION (1) The Phoenix Force is coming for the X-Men's MARVEL GIRL, and the Avengers want to get her off the Earth. Standing in their way? The Uncanny X-Men, who have no intention of just handing Jean Grey over. Everything has been building to this.

S3E25 HOUSE OF M (2) With Magneto and Quicksilver leading the mutants in possession of the shattered Phoenix Force, the Scarlet Witch chooses sides. The Avengers and remaining X-Men are on the run from all the powerful House of M. Mutants or people like humanity have?

S3E26 AVENGERS WORLD It's the Avengers and X-Men versus the Fury of the Dark Phoenix! The chilling nature of the Scarlet Witch's true power is revealed as reality itself breaks. Will either team survive?

My X-Men line-up? Prof. X, Cyclops, Jean Grey, Wolverine, Nightcrawler, Storm, Shadowcat, Colossus, Rogue. Others as needed. #AvengersEM4110

Original Plans For Season 2:

It's been a while. I think we had a Nova-focused episode. Emperor Doom, not Stark. And the finale was a three-parter wherein the Avengers fought Galactus on Hala.

https://twitter.com/joshfine/status/576191958650015936

The very first draft of 'Emperor Stark' was actually a very faithful adaptation of E. Doom, swapping Vision for Wonder Man. Doom!!!

https://twitter.com/yost/status/574371053074788179

I can't quite articulate obviously but whatever they did with it in the man of action episodes, that was theirs. as was deadliest and powerless i think.

https://twitter.com/yost/status/979558673275230464

i've said this elsewhere but season 2 was originally designed to end with the Avengers defeating Galactus on Hala, as the Supreme Intelligence abandoned the Kree people.

New Avengers took place AFTER Operation Galactic Storm, the New Avengers were needed because the main team was gone or on the other side of the universe, not because Kang erased them.

Ultron Unlimited was awkward because we'd just done Skrulls, it felt too soon to have robots impersonating our heroes.

and of course Emperor Stark was always meant to be Emperor Doom, and was written as such.

https://twitter.com/yost/status/1240579730442424241

Our original plan for the end of Season 2 had 'New Avengers' coming after 'Operation Galactic Storm', with the idea being that after the Avengers collapse the Kree wormhole and prevent the destruction of Earth's sun, the event that deliberately kicked off future Earth is prevented. This immediately causes Ravonna to wake from stasis and she goes on a rampage to free Kang, while the Avengers are stuck halfway across the galaxy. When we were told we needed to make changes to Season 2, one of the things we were asked was to do was decouple 'New Avengers' from the Kree story and to replace Ravonna with The Council of Kang so it made more sense stand-alone. As a result, the Ravonna thread was left hanging, so later on when Chris was working on the comics, he decided to address it.

There were several instances during recovery where Josh Fine says he got goosebumps on his spine. One of them was when Josh Keaton recorded lines for Spider-man.

Post-Season 3 Plans (Different Ideas From The Two Producers):

According to Chris Yost:

but if there WAS a season 4... the first half would be called UNDER SIEGE. The second half would be INFINITY QUEST. #AvengersEM4

https://twitter.com/yost/status/1455013481344372739

"Under Siege" is a sort of the Marvel U. during our Secret Wars of Acts of Vengeance. It's Dr. Doom marshalling the greatest super-villains on the planet to put the Avengers on the run, lots of international locations, villains and guest stars. #AvengersEM4

"Infinity Quest" features the Elders of the Universe as they seek out the Infinity Gems in a bid to end the Avengers and Earth's powers on the next and would scatter the Avengers across the cosmic Marvel U. #AvengersEM4

https://twitter.com/yost/status/1455108659862847078#

According To Josh Fine:

Maria Hill's story-line and ending of characters they don't feel needs we planted to grow towards a new Superhuman registration and Civil War. That likely would have been at least a part of Season 4 if we had gotten that far.

Hopefully the re-acquiring of Marvel's 70's announcement leads to us getting a third season of Earth's Mightiest Heroes; I'd love to see another season with this plotline.

Watch the show regularly on D+ if you care; if they see people watching it, they might see there's an audience here too.

EMH is my favorite version of the MU outside of the comics. They need to make season 4, 5, 6, 7 and also a Fantastic Four spinoff and also more seasons of Spectacular Spider-Man. And they need to release Josh Keaton's cut audio. Get to work, Disney Plus lol

Honestly....I'm sure it's going to happen. X-Men 97 was probably just the first to be announced. At least when it comes to Earth's Mightiest Heroes.
Spectacular Spider-Man on the other hand is more complicated, it could totally happen, and I hope it does, but.... Sony is the problem is for right now we already have a new Spider-Man cartoon coming in Freshman Year, the good thing is that'll probably only be one season so after that something could happen, but also the whole licensing issues with Sony are a thing with that show, where Sony owns that show but Marvel owns Spider-Man animation for the small screen, however with Marvel and Sony working with each other it's not out of the question.

The nice thing is, now that Marvel Studios is in direct control of Marvel Animation, we're seeing a resurgence in Marvel cartoons, the difference is it's kind of split where some of the shows will be MCU (I Am Groot, Spider-Man Freshman Year), some will a weird in between (What If...?) and some will be not connected at all (X-Men 97, Wyatt Manus Zombies, Moon Girl and Devil Dinosaur) and I'm here for it.

But yeah I just don't see a situation where they just don't bring back EMH

Man all of these ideas are so cool, they would have really fleshed out their version of the X-Men and touched on so many awesome storylines. I really, really wish they could bring this show back.

They were going to do Kulan Gath, Wanda and Pietro, the Evolutionary War, Ragnarok, The Brood, the Eternals, the Darkhold, the West Coast Avengers, and the damn X-Men and the Phoenix, this would have been so perfect.

I always thought season 2 should have ended with a 3 parter with the Kree and saved the Galactus story for later in season 3.
